PROPOSED REVISED ANNUAL REPORT TEMPLATE

The purpose of this revised Annual Report template is to address the need expressed by a number of municipalities for assistance in the preparation and development of improved content and quality of Municipal Annual Reports. It replaces a template dating back to August 2003.

This template gives effect to the legal framework requirement, concepts and principals espoused in the White Paper on Local Government and Improving Government Performance. It reflects the ethos of public accountability. The content gives effect to information required for better monitoring and evaluation of government programmes in support of policy decision making. The template provides an improved overview of municipal affairs by combining the performance report data required under Municipal Systems Act Section 46 with annual report data referred to in that Act and in the MFMA.

The revised template makes its contribution by forging linkages with the Integrated Development Plan, Service Delivery and Budget Implementation Plan, Budget Reforms, In-year Reports, Annual Financial Statements and Performance Management information in municipalities. This coverage and coherence is achieved by the use of interlocking processes and formats.

The revised template relates to the Medium Term Strategic Framework particularly through the IDP strategic objectives; cross cutting nature of services offered by different spheres of government, municipal service outcome indicators; and the contextual material as set out in Chapters 3, 4 & 5. It also provides information on good management practice in Chapter 4; risk management in Chapter 2; and Supply Chain Management in Chapter 5; and addresses the Auditor-General's Report, dealing with Financial and Performance Management arrangements in Chapter 6. This opens up greater possibilities for financial and non-financial comparisons between municipalities and improved value for money.

The revised template provides information on probity, including: anti-corruption strategies; disclosure of financial interests by officials and councillors; disclosure of grants by external parties, disclosure of loans and grants by municipalities. The appendices talk to greater detail including disaggregated information on municipal wards, among others.

Notes are included throughout the format to assist the compiler to understand the various information requirements. Once the draft has been finalised, training will be provided to facilitate the implementation of this initiative, and separate additional guidance may be issued if necessary.

We wish to express our gratitude to the members of the Annual Report Reference Group, consisting of national, provincial and municipal officials for their inputs and support throughout the development of this document.

CHAPTER 1 – MAYOR’S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: MAYOR’S FOREWORD

Foreword of the Mayor

In accordance with the Municipal Systems Act 2000 (MSA) section 46 and the Municipal Finance Management Act 2003 (MFMA) section 21 every municipality must prepare and submit an annual performance report. This annual performance report should be accompanied by the annual report as well as the annual financial statements of the municipality.

The purpose of the annual report is to provide a report on the performance of the municipality on the service delivery and budget implementation for the financial year, to provide a record of the activities of the municipality during the financial year, to promote accountability to the local community for the decisions made throughout the year by the municipality and to reduce additional reporting requirements that will otherwise arise from government departments, monitoring agencies and financial institutions.

With the above in mind, the goal of this annual report of Kai !Garib Municipality in the

Chapter 1

Northern Cape is to inform you on the number of projects that were completed during the 2012/2013 financial year. During the 2012/13 financial year we completed, among other projects, community high mast lighting in Warmsand and the planning, design and construction of access and collector roads in Alheit.

A comprehensive overview of all projects in the Kai !Garib Municipal area is contained in this document.

With this in mind I would also like to add that this annual report is the product of a dedicated team of councillors, administration and the input and suggestions from the community. I want to thank them for their selfless contribution to the report.

Thank you.

Signed by Councillor JJJ Olyn (Mayor)

COMPONENT B: EXECUTIVE SUMMARY

1.1. MUNICIPAL MANAGER'S OVERVIEW

MUNICIPAL MANAGER'S OVERVIEW

This document sets out Kai !Garib Municipality's annual operational performance which containing key municipal output, plans and priorities of the previous financial term of office. The plan operationalizes key elements of municipal action localising resource contributions of national, provincial and district support as well as basic needs outlined development plans within a rolling 5-year implementation cycle. The mere questions are: **What** is received and **How** much is spend together with **What** must still be done? This Annual Report of 2012/13 is not a stand-alone document and has to be read in conjunction with a host of other strategic issues of areas surrounding the three major towns: Keimoes, Kakamas and Kenhardt together with Augrabies as an economic growth corridor not to exclude the inclusion Riemvasmaak (Vredesvallei & Sending). The purpose of this reporting document is to enhance sectoral project planning and alignment by including their functions and

Chapter 1

contributions towards eradication of service backlogs, progress and implementation thereof.

Central to the execution of annual reporting is the need for economic growth and job creation which has an impact on livelihood social change patterns together with the choices and decisions that the municipality make. Here, the introduction of EPWP and other job creation efforts through state infrastructure development projects and private sector contributes as positive catalyst to the social challenge. The need for marketing the region and attracting international and regional investment are also key elements in financing the execution of Kai !Garib's Municipality's Service Delivery Budgetary Implementation Plan, a tool which is informed by the IDP. Noted, that the latter mentioned which forms the content of the Annual Plan is further refined through a prioritisation process within available budget parameters and alternative service delivery mechanisms to reflect an affordable, bankable, implementation plan.

Key Priority Issues as well as national and provincial strategic issues as encapsulated in various national and provincial plans are concretised and aligned with the following Key Performance Areas:

- ***Basic Service Delivery***
- ***Municipal Institutional Development and Transformation***
- ***Local Economic Development***
- ***Municipal Financial Viability and Management***
- ***Good Governance and Public Participation***

The above KPA's also align with the Department of Co-operative Government, Human Settlement and Traditional Affairs in the Provincial and as well as National Strategic Focus Areas. In conclusion of importance is *inter alia*, the Local Government: Municipal Performance Regulations for Municipal Managers and Managers directly accountable to the Municipal Manager.

Chapter 1

The Vision

“Creating an economically viable and fully developed municipality, which enhances the standard of living of all the inhabitants / community of Kai !Garib through good governance, excellent service delivery and sustainable development.”

The Mission

Provision of transparent, accountable and sustainable service delivery

The Values of Kai !Garib Municipality which guides daily conduct:

- Improved communications and relationships with key role-players
- Transparency in planning and management
- Proper understanding of the needs of communities
- The implementation of a development orientated approach to Local Government.
- Discipline and motivation among officials and councillors
- Building capacity among the staff and Community wherever possible in order to enable them to play an effective role in Local Government.

1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

INTRODUCTION TO BACKGROUND DATA

The municipality is responsible for the delivery of all basic services, i.e. water, sanitation, electricity, refuse removal, housing, local economic development, and storm water drainage.

The delivery of services is addressed through the municipal planning processes, like the Integrated Development Plan (IDP), the Capital and Operational Budgets and the Service Delivery and Budget Implementation Plan (SDBIP).

As can be seen in T1.2.2 the population of the municipality is spread over a wide area, with towns more than 80 km from Keimoes. The entire municipal area covers 7 449 square kilometres. The long distances put a heavy burden on services that must be delivered by vehicle, e.g. refuse removal, sanitation road maintenance and street light maintenance.

The Municipal Area falls within the ZF Mgcawu Municipality's Area and covers an area of 7449 km². The Municipal Area consists of 3 large towns, i.e. Kakamas, Keimoes and Kenhardt. In between these towns, 6 former settlements are found, previously administrated by the "Benede-Oranje" District Council. Keimoes is ± 40km west of Upington and 40km east of Kakamas.

COMMENT ON BACKGROUND DATA:

Demographics are the quantifiable statistics of a given population. Demographics are also used to identify the study of quantifiable subsets within a given population which characterize that population at a specific point in time.

These types of data are used widely in public opinion polling and marketing. Commonly examined demographics include gender, age, ethnicity, knowledge of languages, disabilities, mobility, home ownership, employment status, and even location. Demographic trends describe the historical changes in demographics in a population over time (for example, the average age of a population may increase or decrease over time). Both distributions and trends of values within a demographic variable are of interest.

Demographic information forms the basis for all socio-economic planning.

The collection, analysis and dissemination of accurate demographic information enable policy makers to plan for the future development of a country. Issues such as the future size of the labour market, unemployment, job creation, poverty and environmental degradation are intrinsically linked to demographic processes. It is

Chapter 1

therefore important to base future development policies and programmes on the most accurate demographic information available.

Kenhardt: 52%
Vredesvallei: 0 % (New Installation)

Roads, Parks and Storm water section

- Develop a maintenance program for the section in the municipality
- Reduce the amount of potholes in the municipality

T 1.3.1

Chapter 1

Proportion of households with access to basic services

T1.3.2

Chapter 1

COMMENT ON ACCESS TO BASIC SERVICES:

Electricity: The municipality has an annual electrification program and the backlog consists of informal houses that have been built in the last two years. The backlogs in the Eskom electricity supply area are submitted into the Eskom electrification plan annually.

Refuse removal: All households in the urban area and rural settlements receive the service.

Water: All households in the urban area or rural settlements are serviced by means of a stand tap or a water tank nearby.

Sanitation: The backlog exists in the areas where informal houses were built.

COMMENT ON OPERATING RATIOS:

The variance for the employee cost is within range.

The variance for repairs and maintenance is low and can be attributed to cash flow challenges as well as a shortage of suitable suppliers, specifically to infrastructure repairs.

Chapter 1

Finance charges are low as the municipality is not heavily indebted. Debt impairment is low as well and need to be revised.

2.4 PUBLIC MEETINGS

COMMUNICATION, PARTICIPATION AND FORUMS

Kai !Garib Municipality does not currently have a communications unit. However, we do communicate via our local newspaper and by making use of a loud hailing system within our communities.

T2.4.1

Chapter 2

WARD COMMITTEES

The Local government legislations made a provision for local authorities to establish a system of participatory democracy at the local level in the form of Ward Committees. Ward Committees were introduced in municipalities as community structures to play a vital role in linking and informing the municipalities about the needs, aspirations, potentials and problems of the communities. They were established to form the bridge between local municipalities and communities by facilitating proper communication. By working directly with the Municipality, ward committees, serve as a cord which articulates the new system of local government to the majority of the people, more especially to previously disadvantaged communities. Ward committees have an important role to play in actively taking part and determining core municipal business such as Integrated Developmental Planning, Budgeting, Municipal performance management process, without which democracy cannot be said is rooted on among the people. Ward committees are a creation of legislation, the Municipal Structures Act, giving effect to the Constitution of the South Africa.

Ward committees has dealt with a variety of community needs, problems and aspirations at ward level. The major issues among others were housing challenges, road infrastructure, water and electricity.

Chapter 2

COMMUNITY PARTICIPATION OF IDP REVIEW 2013/2014 SECOND ROUND

Ward	Categories	Community Inputs
Kenhardt Ward 9 20May	Municipal Accounts:	➤ Breakdown and delivery of accounts is not sufficient or enough to understand. ➤ A clear explanation of the indigent policy and the reason why it is different from the previous policy, is required ➤ Waiver of water bills are requested ➤ Prohibition of the sale of economic plots must be lifted ➤ What was put in place to collect bad debts, citing the losses on the budget for the past two years?
	Road Infrastructure:	➤ Tarred roads are in a terrible state ➤ Can't the Municipal Board have talks with the Contractors, engaged in road works, to invest in the town's roads? ➤ Demand for the construction of speed bumps
	Drinking Water:	➤ When will the Rooiblok get fresh water?
	Electricity:	➤ Request for the installation of floodlights to eliminate dark spots
	Housing:	➤ Why must Kenhardt always stand aside; when it comes to the number of houses being built in the Kai! Garib environment? ➤ Allocation of church grounds must be completed or at least be identified ➤ How long is the waiting period for stands to be registered?
	Sport and Recreation:	➤ Sports ground is in a terrible state. The Municipality is called to attend to that
	Local Economic Development:	➤ Appointments with regards to job creation is done for only certain needy; and not given to the needy in other racial groups ➤ With reference to the current budget, it shows no projects for Kenhardt in the new financial year, while several deficiencies were identified in the past. ➤ Is the Drop Inn Centre, which provides food to homeless people, funded by the Municipality? ➤ Is recycling a priority and how can it be addressed? ➤ Officials and their responsibilities of the Kenhardt Municipality is unknown to the community ➤ Upgrading of the community hall, especially toilets and maintenance, are required ➤ Demand for construction / installation of toilets at the Cemetery ➤ Budget for and demand of a doctor and better medical care ➤ Demand for vegetable gardening projects and the availability of land (for such a project)
Keimoes-Ward 6,7&8 21 May	Municipal Services (Refuse Removal/Sewer age):	➤ Demand for bins in strategic locations in town and suburb

Chapter 2

Lennertsville, Soverby, Currieskamp, Blaauwskop, Keimoes Dorp, Noodkamp, Gamakor, Akasia Park, Bloemsmond	Municipal Accounts:	➤ Concerns were raised about the lack of finances to the Budget - What is put in place to address this? ➤ How does the Council get to the 15% increase? Why not some other percentage? ➤ The reason why the amount of bad debt is so high, is because the Council charge for services on stands that is empty for years ➤ A suggestion was made to take empty stands back after a certain period, as is done in other municipalities ➤ When will the registration process on properties be completed? ➤ Appeal is made to give opportunity to people who are not covered by the indigent policy, to obtain plots ➤ How long will it take to lift the ban on the sale of economic plots and who is driving it?
	Road Infrastructure:	➤ Mc Taggerskamp don't have a recognized turn-off that can be upgraded, as is done in other areas ➤ The grading of roads have been addressed at previous occasions and still receives no attention ➤ Access road for cattle are requested in Kanoneiland
	Drinking Water and other water related issues:	➤ Water meters are required in CurriesKamp for all residents to exercise sufficient control over water, with regard to their accounts
	Electricity:	➤ The floodlight in Currieskamp is out of order ➤ Power supply is a problem. There are frequent complaints, but nothing has been done in this regard
	Housing:	➤ When will people get stands? ➤ Does the municipality do anything from their side to ensure that housing in Kanoneiland is up to standard? ➤ Why is there no housing supply to the old people of Lennertsville?
	Sport and Recreation:	
	Local Economic Development:	➤ The division of Bloemsmond in a ward should be made clear (in which ward?) ➤ What services are delivered in Bloemsmond? ➤ Where does Mc Taggerskamp fit in, seeing that there is no mention of them in the current budget? ➤ Why are there no development or service delivery in Mc Taggerskamp, since they have to make use of the pit-toilet system and water wells in the channel? ➤ Residents of Lennertsville demand for land for private industry (farming) ➤ Kanoneiland & Blaauwskop requires land for its own cemetery ➤ Concern rose about the budget of R1 million for township establishment. It must span the entire Kai! Garib area ➤ Eksteenskuil received no attention in the budget. Disappointment is expressed ➤ Bridges in Eksteenskuil are insufficient ➤ There are people who live in a river walk. Urgent attention is requested ➤ Can the Council help people with wire and poles for fencing, or subsidize the acquisition, since people spoil the cemeteries by taking fences from the graves ➤ Service Delivery in Kanoneiland is not sufficient

Chapter 2

		➤ A request is made to look at the bridges in Kanoneiland ➤ What contribution can the municipality make to schools in the Kanoneiland area? ➤ Healthcare in Kanoneiland is a big problem ➤ Where are the development for young people? ➤ What contribution does the municipality make with respect to further study opportunities for young people, libraries and computer skills?
	Municipal Services (Refuse Removal/Sewer age):	➤ Waste disposal is a major problem in CurriesKamp, since there is no service. ➤ Currieskamp is still using pit toilets! ➤ Is the corner in Hollenbachlaan a download area for garbage, as the municipality shed garbage there; thus followed by the community, by doing the same ➤ When will attention be given to houses with pit toilets in Lennertsville?
Kakamas-Ward 2 3,4&7 22 May		
Kakamas, Langverwacht, Lutzburg, Alheit, Cillië, Bloukamp, Neus, Kromhous	Municipal Accounts:	➤ Appeal is made to look at other sources for losses or shortfalls in the budget
	Road Infrastructure:	➤ An urgent appeal is made to bring more speed bumps in the neighbourhood of ward 4 (Mr Pienaar)
	Drinking Water and other water related issues:	➤ No water and toilet facilities in shantytown on Kenhardt road
	Electricity:	
	Housing:	➤ The allocation of houses is done in an unfair manner ➤ A woman in the community's house burned down and she waited three years for a house. House was approved, but not received anything yet. ➤ Appeal is made to look for housing (homes) for the elderly
	Sport and Recreation:	➤ Request to pay attention to Sports Fields in Cillië regarding track development
	Local Economic Development:	➤ Suggestion was made to use students who had matriculated, for the EPWP, to get work experience, as it is only for short periods (three months). ➤ An appeal is made to the Council, not to come to the community as an incomplete panel ➤ Job creation is only for certain people
	Municipal Services (Refuse Removal/Sewer age):	➤ HMO dumps garbage at squatter camp which is very unhealthy and unhygienic ➤ Water problem is encountered at the toilets of the school in Cillië. Requesting the Municipality to help in this regard ➤ Problems are encountered with the drainage system in Ward 4. It's

	Municipal Services (Refuse Removal/Sewerage):	➤ Demand for flushing toilets. Pit latrines are unhygienic, overcrowded and cause diseases. ➤ Urgent appeal is made for provision of sewerage at Riemvasmaak in the current budget. ➤ The old (municipal) toilets are broken, have cracks, and are not in good condition. Can the Council help? ➤ Refuse removal are not done at all streets. ➤ EPWP must pay attention to the dump-site

Chapter 2

COMMENT ON THE EFFECTIVENESS OF THE PUBLIC MEETINGS HELD:

The Public meetings that were held were effective in the sense that communities raised their service delivery issues to council. This in essence averts possible service delivery marches as council could deal with the concerns of the communities to the satisfaction of the Council and the community alike.

COMPONENT D: CORPORATE GOVERNANCE

OVERVIEW OF CORPORATE GOVERNANCE

Corporate Governance refers to the way the institution is governed. It is the technique by which the municipality is directed and managed. It means carrying the municipality as per the stakeholders' desires. The relationship between the community and the managers in an organization must be healthy. The owners must see that individual's actual performance is according to the standard performance.

Corporate Governance deals with determining ways to take effective strategic decisions. It gives ultimate authority and complete responsibility to the managers. Corporate Governance ensures transparency which ensures strong and balanced development. This also ensures that the interests of all shareholders are safeguarded. It ensures that all shareholders fully exercise their rights and that the organization fully recognizes their rights. Corporate Governance has a broad scope. It includes both social and institutional aspects. Corporate Governance encourages a trustworthy, moral, as well as ethical environment.

The Institute of Internal Auditors defines internal auditing as follows:

“... an independent, objective assurance and consulting activity designed to add value and improve an organisation’s operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.”

The Department Internal Audit compiled a Three Year Rolling Plan for the period 1 July 2010 till 30 June 2013 and Operational Internal Audit plan for the year ended 30 June 2012 that was approved by the Accounting Officer and the Audit Committee.

T2.7.1

2.8 SUPPLY CHAIN MANAGEMENT

OVERVIEW SUPPLY CHAIN MANAGEMENT

MFMA S110-119; SCM Regulations 2005; and relevant MFMA circulars set out required processes and guidance manuals to help ensure that SCM arrangements provide appropriate goods and services, offer best value for money and minimize the opportunities for fraud and corruption.

Supply Chain Management (SCM) is necessary to ensure a sustainable and accountable supply chain that promotes black economic empowerment and local economic development. The drafting and implementation of both an SCM policy and procedures have ensure that the processes are fair, equitable, transparent, competitive, environmentally friendly and cost effective, in accordance with the rules and regulation from the spheres of government.

The municipality is currently operating a decentralized SCM unit and is in the process of converting to a centralized structure, which will promote and enhance an open and fair tendering process to all suppliers, regardless of the particular communication media that they may have access to. This system will level the playing field for all suppliers.

CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

INTRODUCTION

The performance of the municipality is measured against key performance objectives and indicators in the IDP and in this chapter an overview of the deliverables achieved in the delivery of basic services, local economic development, health, security and safety will be addressed.

Multi-year overviews will be given for basic services, such as water, waste water (sanitation), electricity, waste management, housing services and free basic services.

These overviews will include capital projects, service delivery levels, financial performance, performance against IDP objectives and information on staff critical to service delivery.

The municipality does not deliver any services through municipal entities.

INTRODUCTION TO WATER PROVISION

Note: Recent legislation includes the Water Services Act 1997 and the General Enabling Act 2005

A number of the purification systems in the municipal area cannot meet the demand of the areas concern.

The water purification plant at Kakamas was constructed during the 1980's and has reached its useful life. The plant cannot meet the demand of the growing town.

Three plants are to be constructed in the near future to supply areas for the first time with clean, safe drinking water.

Three plants were upgraded in the 2012/2013 financial year to meet the demand for potable water in different areas.

Kai !Garib Municipality achieved an average Bluedrop score of 78% and is dedicated to improve on the said score.

INTRODUCTION TO ELECTRICITY

Note: Recent legislation includes the Electricity Amendment Acts 1989; 1994; 1995; and the Electricity Regulation Act 2006.

Delete Directive note once comment is complete – Provide brief introductory comments on your strategy for the provision of electricity at household level and the progress being made to redress service backlogs and achieve the National basic standard for Electricity provision by 2014 (include your top 3 service delivery priorities and the impact you have had on them during the year). Set out measures taken to improve performance and the major efficiencies achieved by your service during the year. Discuss the major successes achieved and challenges faced in year 1. Indicate how your municipality identifies and responds to those communities that are living in poverty and are deficient in this basic service. Give the name and extent of service provision of any municipal entity(ies) responsible for rendering Electricity Services within the municipality.

3.4 WASTE MANAGEMENT (THIS SECTION TO INCLUDE: REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)

INTRODUCTION TO WASTE MANAGEMENT

Waste Management remains one of the biggest challenges in the municipal area. More incidents of illegal dumping and general littering are reported. There are recycling projects currently running in the towns Kakamas, Keimoes and Kenhardt. Refuse trucks have to cover long distances to remove household waste. Only two solid waste sites are permitted. Applications for transfer stations at the other settlements have been submitted to the Department of Environmental Affairs. The municipality make use of service providers for the removal of garden refuse.

Note: This statement should include no more than the top four priority service objectives. The indicators and targets specified above (columns (i) and (ii)) must be incorporated in the indicator set for each municipality to which they apply. These are 'universal municipal indicators'. *'Previous Year' refers to the targets that were set in the Year 0 Budget/IDP round; *'Current Year' refers to the targets set in the Year 1 Budget/IDP round. *'Following Year' refers to the targets set in the Year 2 Budget/IDP round. Note that all targets in the IDP must be fundable within approved budget provision. MSA 2000 chapter 5 sets out the purpose and character of Intergrated Development Plans (IDPs) and chapter 6 sets out the requirements for the reduction of performance management arrangement by municipalities in which IDPs play a key role.

CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE

(PERFORMANCE REPORT PART II)

INTRODUCTION

The Organizational Structure provides for four Directorates that had a total number of 247 employees during the year. Not all critical funded vacancies were filled. There were 42 cases of injury on duty reported. Only two employees were suspended for alleged misconduct. No employees were charged with financial mismanagement. No performance rewards paid. The municipality spent R390 000 on Skills Development to improve the skills of the employees during the year. Management retained a healthy relationship with employees by meeting on a monthly basis with the two recognized labour unions on the Local Labour Forum.

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

The main focus for the year was compliance with the Minimum Competency Regulations for Senior and Middle Managers within the finance department. We have also trained officials in the IDP process as well as Business Plan Compilation so as to better assist members of the community to compile business plans for their own businesses. Uplifting the community through uplifting the municipality being the ultimate goal of that specific process. We also trained lower level employees in Labour Relations as well as Occupational Health and Safety.

Chapter 4

COMMENT ON SKILLS DEVELOPMENT AND RELATED EXPENDITURE AND ON THE FINANCIAL COMPETENCY REGULATIONS:

The Municipality spent about 1.24% of the value of salaries on Skills Development which is within the limits of the approved Work Place Skills Plan. The municipality sent a number of individuals from various departments on training required in their sections. We take training very seriously in our municipality and all efforts are put forward to make training endeavours a success. We have not sent any senior financial manager on training to comply with the minimum competency regulation.

Chapter 4

COMPONENT D: MANAGING THE WORKFORCE EXPENDITURE

INTRODUCTION TO WORKFORCE EXPENDITURE

Pressures for the delivery of basic services, like clean water, have resulted in overspending on the overtime of the technical staff. The rapid growth of informal settlements has also placed increased pressure upon the entire municipality and its expenditure.

Chapter 5

CHAPTER 5 – FINANCIAL PERFORMANCE

INTRODUCTION

Chapter 5 contains information regarding financial performance and highlights specific accomplishments. The chapter comprises of three components:

- Component A: Statement of Financial Performance
- Component B: Spending Against Capital Budget
- Component C: Other Financial Matters

Delete Directive note once comment is complete - Please explain how your municipality sought to contain inflationary pressures during the financial year. Take the 5 most expensive consultancy arrangements in 2008/09 and explain the costs, the reasons for the engagements and the results. Include such other introductory remarks as you wish.

T5.0.1

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

INTRODUCTION TO FINANCIAL STATEMENTS

Note: Statements of Revenue Collection Performance by vote and by source are included at **Appendix K**.

Delete Directive note once comment is complete - This component provides an overview of the financial performance of the municipality and focuses on the financial health of the municipality

5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

Liquidity Ratio

Liquidity Ratio – Measures the municipality's ability to pay its bills and is calculated by dividing the monetary assets (due within one year) by the municipality's current liabilities. A higher ratio is better.

Data used from MBRR SA8

T5.4.1

Cost Coverage

Cost Coverage— It explains how many months expenditure can be covered by the cash and other liquid assets available to the Municipality excluding utilisation of grants and is calculated

Data used from MBRR SA8

T5.4.2

Chapter 5

Total Outstanding Service Debtors

Total Outstanding Service Debtors – Measures how much money is still owed by the community for water, electricity, waste removal and sanitation compared to how much money has been paid for these services. It is calculated by dividing the total outstanding debtors by the total annual revenue. A lower score is better.

Data used from MBRR SA8

T5.4.3

Debt Coverage

Debt Coverage– The number of times debt payments can be accommodated within Operating revenue (excluding grants) . This in turn represents the ease with which debt payments can be accommodated by the municipality

Data used from MBRR SA8

T5.4.4

Chapter 5

Creditors System Efficiency

Creditor System Efficiency – The proportion of creditors paid within terms (i.e. 30 days). This ratio is calculated by outstanding trade creditors divided by credit purchases

Data used from MBRR SA8

T5.4.5

Chapter 5

Capital Charges to Operating Expenditure

Capital Charges to Operating Expenditure ratio is calculated by dividing the sum of capital interest and principle paid by the total operating expenditure.

Data used from MBRR SA8

T5.4.6

Employee Costs

Employee cost – Measures what portion of the revenue was spent on paying employee costs. It is calculated by dividing the total employee cost by the difference between total revenue and capital revenue.

Data used from MBRR SA8

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

INTRODUCTION TO SPENDING AGAINST CAPITAL BUDGET

Delete Directive note once comment's completed – Capital expenditure relates mainly to construction projects that will have value lasting over many years. Capital expenditure is funded from grants, borrowings and operating expenditures and surpluses. Component B deals with capital spending indicating where the funding comes from and whether Municipalities are able to spend the available funding as planned. In this component it is important to indicate the different sources of funding as well as how these funds are spend. Highlight the 5 largest projects (see T5.7.1) and indicate what portion of the capital budget they use. In the introduction briefly refer to these key aspects of capital expenditure (usually relating to new works and renewal projects) and to **Appendices M** (relating to the new works and renewal programmes), **N** (relating to the full programme of full capital projects, and **O** (relating to the alignment of projects to wards).

5.8 BASIC SERVICE AND INFRASTRUCTURE BACKLOGS – OVERVIEW

INTRODUCTION TO BASIC SERVICE AND INFRASTRUCTURE BACKLOGS

Delete Directive note once comment is complete – Explain that need and cost of backlogs are the result of migration into an area; migration out of an area; the trend towards disaggregation of families into more than one housing unit; and the cost of renewing and upgrading core infrastructure. Explain how this balance effects net demand in your municipality and how your municipality is responding to the challenges created.

** MIG is a government grant program designed to fund a reduction in service backlogs, mainly: Water; Sanitation; Roads; Electricity. Expenditure on new, upgraded and renewed infrastructure is set out at Appendix M; note also the calculation of the variation. Variances are calculated by dividing the difference between actual and original/adjustments budget by the actual.*

5.12 SUPPLY CHAIN MANAGEMENT

SUPPLY CHAIN MANAGEMENT

INTRODUCTION AND BACKGROUND

This report is a summary that highlights the implementation of the Supply Chain Management policy in Kai !Garib Municipality. Regulation 6(3) of the SCM regulations requires the Accounting Officer to report on the implementation of the SCM policy to Council to effect Council's oversight role in SCM.

SCM POLICY

The Municipality approved its Supply Chain Management Policy on 9th October 2009. The effective date of the policy was 1 December 2009.

CHALLENGE(S)	PROPOSED SOLUTION(S)
No revisions have been effected on this policy in order to incorporate legislative and statutory amendments by National Treasury, since its adoption.	An urgent policy review

Chapter 5

SUPPLY CHAIN MANAGEMENT INSTITUTIONAL ARRANGEMENTS

The council developed its policy in line with the Supply Chain Management regulations issued by National Treasury. The National Treasury developed a generic supply chain management policy which was amended to suit the needs of the municipality.

Goods are being procured by way of:

- 1 Written quotation up to a value of R 2000.00
- 3 Written quotations up to a value of R 30 000.00
- Formal written quotations(RFQ's) for transaction in excess of R 30 000.00 up to R200 000.00
- A competitive bidding process for all transactions in excess of R 200 000.
- Where normal applicable SCM processes cannot be complied with as per the thresholds above, a written deviation is authorized by the Accounting Officer.

CHALLENGE(S)	PROPOSED SOLUTION(S)
Poor description and irrelevant votes on requisitions that creates a backlog on the execution of purchase orders; Frequent request for deviations from the Accounting Officer that stem from factors such as lack of planning Non-compliance to the General preconditions for consideration of written quotations due to a de-centralized procurement system- Reg 13	Requisitions should be submitted with clearer descriptions and relevant budgets; Filling of crucial vacant positions to increase manpower in the unit; H.O.D's can start conducting needs analysis and request once-off tenders/RFQ's for goods and services purchased frequently or needed in large

Chapter 5

of the SCM regulations	quantities at the beginning of the financial year Centralizing SCM activities
------------------------	--

Establishment of the Supply Chain Management Unit

The current staff complement of the unit is as follows:

- ☐ 1x Manager: Expenditure
- ☐ 1x Accountant: SCM
- ☐ 1x Senior Purchasing Clerk
- ☐ 1x Data Clerk
- ☐ 1x Distribution Clerk

Only 1 position is currently filled and 4 positions are vacant and an intern has also been appointed.

CHALLENGE(S)	PROPOSED SOLUTION(S)
Staff Issues The unit is currently understaffed There's a lack of segregation of duties Training The current temporary employees of the unit have not been equipped with the necessary skills to meet the	All vacant positions should be filled Formal training should be organized to complement the current on-the-job training

Chapter 5

demands of their tasks	
------------------------	--

ESTABLISHMENT OF THE BID COMMITTEES

The Municipality applies a fully-fledged bid committees system, and officials were appointed in October to participate in the committees, following a written letter of appointment from the Accounting Officer.

CHALLENGE(S)	PROPOSED SOLUTION(S)
Reg 29 (2)(b) of the SCM regulations requires a bid adjudication committee to consist of at least three senior managers of the municipality which must include – ☐ at least one senior supply chain management practitioner who is an official of the municipality The Bid Adjudication Committee is noncompliant to this requirement.	A speedy appointment of Expenditure Manager

ESTABLISHMENT OF A SUPPLIER DATABASE

It is an MFMA requirement that the municipality must have a list/database of accredited suppliers and service providers.

Chapter 5

CHALLENGE(S)	PROPOSED SOLUTION(S)
Vendor information is currently captured on an excel spreadsheet The number of active registered suppliers is Unknown Supplier rotation cannot be applied The SCM module on SEBATA system is currently not open for use Poor response to the database registration notices	The process of getting the SCM module in operation must be sped up in order to facilitate: ☐ Vendor File data cleansing ☐ Electronic requisitions Procurement & bids awareness workshops to local suppliers should be introduced

REPORTING

National Treasury requires a report on all acquisitions in excess of R 100 000 to be submitted monthly basis.

CHALLENGE(S)	PROPOSED SOLUTION(S)
No reports have been submitted for the October-December 2012 quarter.	Provincial Treasury has already been contacted to allocate new

Chapter 5

	personnel to capture the information.
--	---------------------------------------

DEVIATIONS/RATIFICATION OF MINOR BREACHES OF PROCUREMENT PROCESSES

The municipal supply chain management regulations allows for a municipality to deviate from normal

SCM processes if it impractical to follow SCM procedures.

CHALLENGE(S)	PROPOSED SOLUTION(S)
The majority of deviations received and approved by the Accounting Officer are as a result of poor planning and they usually don't constitute emergency/urgency as per policy. This will be a challenge to the SCM unit if this becomes an audit query, because the reasons provided for deviations do not prove the impracticality of following the normal SCM procedures.	A policy review that stipulates strict measures regarding deviations and breaches of procurement processes

Chapter 5

IMPLEMENTATION OF THE MBD's

All municipal bid documents (MBDs) are in place in compliance with MFMA Circular 25 and include specifications and evaluation criteria as recommended by the Specifications Committee.

CHALLENGE(S)	PROPOSED SOLUTION(S)
Reg 27(2)(g) requires specifications to be approved by the accounting officer prior to publication of the invitation for bids. This requirement is not being complied with.	Going forward, the Specifications Committee must ensure that the Accounting Officer approves the specifications prior to advertising.

IMPLEMENTATION OF A GIFT DECLARATION REGISTER

Council's SCM policy stipulates that no official or other role player involved in SCM may accept any gift, reward, favor, hospitality or other benefit promised directly or indirectly, including to any close family member, partner or associate. Furthermore any official or other role player must declare any gift, reward, favor, hospitality or other benefit promised, offered or granted to that member or to a close family member, partner or associate of that member from suppliers or potential suppliers, of a value of R350.00 or more.

T5.12.1

5.13 GRAP COMPLIANCE

GRAP COMPLIANCE

GRAP is the acronym for **G**enerally **R**ecognized **A**ccounting **P**ractice and it provides the rules by which municipalities are required to maintain their financial accounts. Successful GRAP compliance will ensure that municipal accounts are comparable and more informative for the municipality. It will also ensure that the

Chapter 5

municipality is more accountable to its citizens and other stakeholders. Information on GRAP compliance is needed to enable National Treasury to assess the pace of progress and consider the implications.

Delete Directive note once comment's completed – Follow the above with information on progress with GRAP compliance at your municipality. Detail any instances where the municipality has deviated from the GRAP standards currently applicable.

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

INTRODUCTION

Note: The Constitution S188 (1) (b) states that the functions of the Auditor-General includes the auditing and reporting on the accounts, financial statements and financial management of all municipalities. MSA S45 states that the results of performance measurement... must be audited annually by the Auditor-General.

Delete Directive note once comment's completed - Refer to the Annual Financial Statements set out in Volume II and the timescale for the audit of these accounts and the audit of performance and the production of reports on these matters by the Auditor General as set out in this Chapter. If this is the version of the annual report presented to Council in September then the Auditor-Generals statements on this year's submissions will not be available for inclusion in this Chapter and this should be explained.

T6.2.5

GLOSSARY

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give “ <i>full and regular</i> ” reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe “ <i>what we do</i> ”.
Adequacy indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.

GLOSSARY

Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.
Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out municipal goals and development plans.
National Key performance areas	• Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.

GLOSSARY

Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Information	Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.
Vote:	One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area. Section 1 of the MFMA defines a "vote" as: <i>a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and</i> <i>b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned</i>
