- 2.2 ensure that all monies due and payable to the Municipality are levied and collected in a financially sustainable manner;
- 2.3 provide a framework for customer care and indigent support;
- 2.4 describe credit control measures and sequence of events;
- 2.5 outline debt collection and credit control procedures and mechanisms; and
- 2.6 set realistic targets for credit control and debt collection.

3. PRINCIPLES

3.1 The administrative integrity of the Municipality must be maintained at all costs. The democratically elected councillors are responsible for making of policy, while it is the responsibility of the Municipal Manager to ensure the execution of these policies.

3.2 All customers must complete an official application form, formally requesting the Municipality to connect them to service supply lines. Existing customers may be required to complete new application forms from time to time, as determined by the Municipal Manager.

3.3 Application forms, agreements and documents relating to this Policy must be available in Afrikaans and English. Officials designated to control and manage these documents must be able to explain the contents thereof in the three languages of the Northern Cape.

3.4 A copy of the application form, conditions of services and extracts of the Council's Customer Care, Credit Control and Debt Collection Policy and By-Laws must be handed to every customer on request at such fees as may be prescribed by Council.

3.5 Billing is to be accurate, timeous and understandable as far as possible.

3.6 The customer is entitled to reasonable access to pay points and to a variety of reliable payment methods which will include cash, cheque, debit or credit card, electronic fund transfer, debit order and bank order payments.

3.7 The customer is entitled to an efficient, effective and reasonable response to appeals, and should suffer no disadvantage during the processing of a reasonable appeal.

3.8 Enforcement of payment must be prompt, consistent and effective.

3.9 Unauthorised consumption, connection and reconnection, the tampering with or theft of meters, service supply equipment and the reticulation network and any fraudulent activity in connection with

the provision of municipal services will lead to disconnections, charges, penalties, loss of rights and/or criminal prosecutions. A certificate reflecting the nature and extent of the unauthorized activity must be issued by a duly qualified person to substantiate the claim.

3.10 Incentives and disincentives may be used in collection procedures.

3.11 The collection process must be cost-effective.

3.12 Results will be regularly and efficiently reported and monitored.

3.13 Application forms may be used to, *amongst others*, categorise customers according to credit risk and to determine relevant levels of services and deposits required.

3.14 Targets for performance in both customer service and debt collection will be set and pursued and remedies implemented for non-performance.

3.15 Where practically possible the Customer Care and Debt Collection Policies would be handled independently of each other and the organisational structure will reflect the separate functions.

3.16 The principle of providing services instead of payment for arrear accounts is supported.

3.17 Customers that meet council's indigent criteria must be identified and supported.

4. PERFORMANCE EVALUATION

This is addressed in the SDBIP and the Municipal Performance Management System.

5. REPORTING

5.1 The Chief Financial Officer (Director: Finance) shall report monthly to the Municipal Manager in a suitable format to enable the Municipal Manager to report to the Executive Mayor, as supervisory authority in terms of section 99 of the Act, read with section 100(c). This report shall contain particulars on:

(a) Cash collection statistics, showing high-level debt recovery information (number of customers; enquires; arrangements; default arrangements; growth or reduction of arrear debt). Where possible, the statistics should ideally be divided into wards, business (commerce and industry), domestic, state, institutional and other such divisions.

(b) Performance on all areas against targets agreed to in paragraph 5 of this policy document.

5.2 If in the opinion of the Chief Financial Officer, the Municipality will not achieve cash receipt income equivalent of the income projected in the annual budget as approved by Council, the Chief Financial Officer will report this with motivation to the Municipal Manager who will, if he/she agrees with the Chief Financial Officer, immediately move for a revision of the budget according to realistically realisable income levels.

5.3 The Executive Mayor, as supervisory authority, shall report at intervals of 3 months to Council as contemplated in section 99(c) of the Act.

6. CUSTOMER CARE

6.2 Communication and feedback

6.2.1 The Municipality will, within its financial and administrative capacity, conduct an annual process of compiling and communicating its budget, which will include targets for credit control and debt collection. This process will include the effort to ensure that the residents and customers understand the costs involved in the service provision, the reasons for payment of service tariffs and the manner in which monies raised from the customers are utilised.

6.2.2 Council will endeavor to distribute a regular newsletter, which will give prominence to customer care and debt collection issues.

6.2.3 Ward councillors will give feedback at ward meetings, at which customer care and debt collection issues will be given prominence.

If the test reveals the meter to register outside the norm as prescribed for the service in question (Electricity or Water), the charges paid will be refunded, the meter will be replaced and the customer's account will be adjusted accordingly, subject to a maximum period of 3 months from month of written request for testing of meter.

6.3.7 Customers will be informed of meter replacement.

6.3.8 Customers must give notice of at least 48 hours to the Municipality should a final reading or discontinuation of service be required. When a customer vacates a property and a final reading of the meter is not possible due to no access, an estimated consumption will be used by the Municipality and the final account rendered accordingly.

6.3.9 If a service is metered but it cannot be read due to financial and/or human resource constraints or circumstances beyond the control of the Municipality or its authorised agent, and the customer is charged for an estimated consumption, the account following the reading of the metered consumption must articulate the difference between the actual consumption and the average consumption, and the resulting credit or debit adjustments.

(a) may recover the average bank charges incurred relating to dishonoured negotiable instruments, together with an administration fee, against the account of the customer;
